

Restorative Practices Implementation ONLINE WORKSHOP

Changing Paradigm in Schools

1st March 2022

Working restoratively is a way of being and doing that is both firm and supportive. Successful implementation of Restorative Practices (RP) in schools requires a good understanding of the philosophy and practices of RP. Both proactive and reactive - RP helps to support the development of a healthy school environment that will be conducive for learning and social emotional wellbeing.

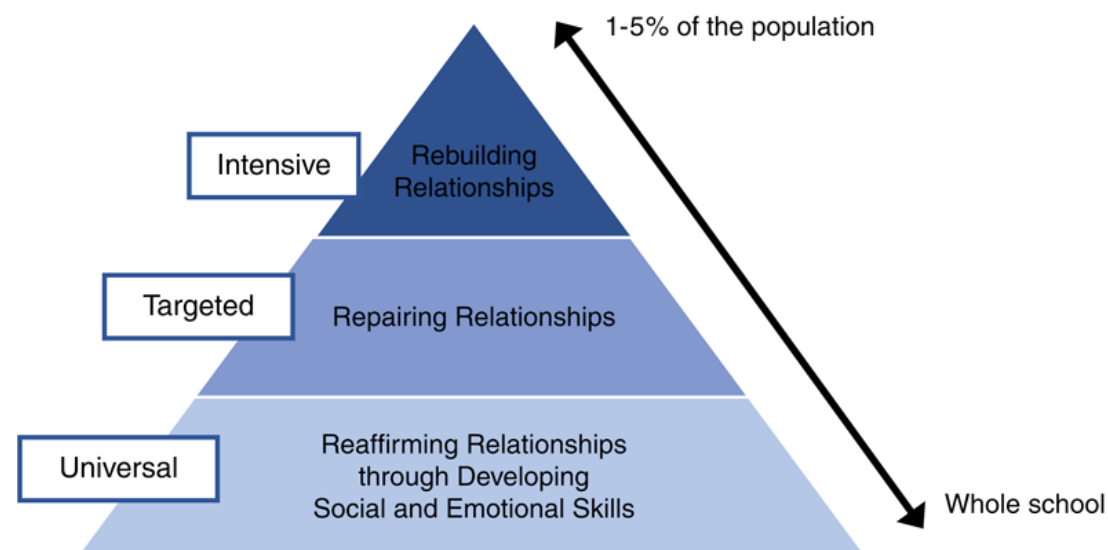

Workshop Objectives:

- Understanding the 5 stages of RP implementation and the allocation of time and resources in each stage
- Involving the different stake holders – School Leaders, Key Personal, Teachers, Students, Parents
- Alignment to current school discipline framework.
- Alignment to school processes/initiatives
- Developing the RP Implementation team
- Latest research on RP Implementation

Who Should Attend?

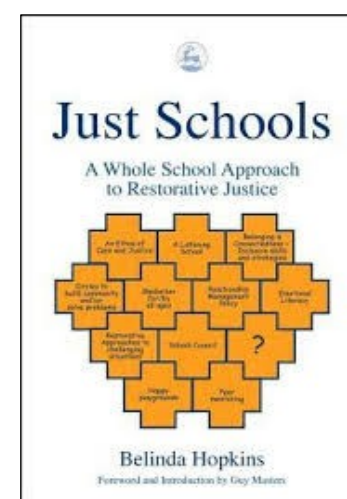

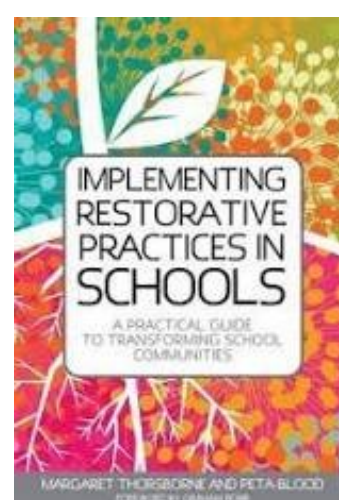

- School Leaders
- School Student Management Team
- School Pastoral Team

Participants need to have a basic understanding of RP.
